

WAYS TO GET INVOLVED IN CURING RARE DISEASE

Cure Rare Disease is a nonprofit biotechnology company pioneering the development of customized therapeutics, those designed for the individual, to treat rare, genetic diseases. We draw support from the community to advance this unprecedented mission so that today's patients can see tomorrow's cures.

As a nonprofit biotechnology company, you have the unique opportunity to get involved and join us in making history. Below are several ways to get involved with saving those impacted and changing the paradigm of drug development.

Connect your company to Cure Rare Disease for fundraising opportunities

- > Corporate grant opportunities
- > Corporate partnerships for retail businesses

Gift of stocks & securities to support the mission

- > Cure Rare Disease offers a brokerage account to transfer gifts of securities and provide tax benefit

Host a fundraiser or dinner party to raise support for Cure Rare Disease

- > E-sports fundraiser
- > Facebook birthday fundraiser
- > Cocktail party fundraiser
- ...and more

Join a Cure Rare Disease committee or volunteer your skillset to help us grow

- > Development committee
- > Gala committee
- ...and more

Be a part of the global philanthropy network by joining the Cure Rare Disease Giving Society

- > Society members benefit from exclusive insights into our cutting-edge work and more.

Round up to support

- > Sign up for the RoundUp App to donate your change
- > Visit www.roundup.app/p/curerareisease to learn more

Cure Rare Disease's progress is being recognized across the US in acclaimed media outlets.
